Annual Investment & Credit Report — Fiscal Year 2025

Prepared for the Board Investment & Credit Risk Committee · CONFIDENTIAL — synthetic data for demonstration

Executive Summary

Fiscal year 2025 showed a clear improvement in credit quality. The NPA ratio fell to 1.18% (from 1.62%) and the net charge-off rate dropped to 0.31% (from 0.48%), while ACL coverage strengthened to 359%. Capital improved, with the Tier 1 ratio rising to 12.1%. Total assets grew to \$1,553.9M and net income increased to \$16.91M. CRE concentration eased slightly to 39% but remains above the 35% policy limit, and top-5 issuer concentration was 61% — both remain watch items.

Financial Highlights

Metric	FY2025
Total assets	\$1,553.9M
Total loans	\$1,092.7M
Total deposits	\$1,268.4M
Net income	\$16.91M
Tier 1 capital ratio	12.1%
NPA ratio	1.18%
Net charge-off rate	0.31%
ACL coverage ratio	359%
CRE concentration	39%
Top-5 issuer concentration	61%

Credit Quality & Risk Observations

- **[HIGH]** CRE concentration of 39% still exceeds the 35% internal policy limit.
- **[MEDIUM]** Top-5 issuer concentration of 61% of the securities book remains elevated.
- **[LOW]** NPA ratio improved to 1.18% and net charge-offs fell to 0.31% — no action.
- **[LOW]** Tier 1 capital ratio strengthened to 12.1%, well above the 10.0% floor.

Rate-shock sensitivity (illustrative, not a forecast): under a parallel +200 bps shock, first-order earnings-at-risk is estimated using the one-year repricing gap; management views the exposure as manageable within current limits.
